Experience

Automation Engineer • New Classrooms May 2019 - Present

New Classrooms is a non-profit edu-tech organization that partners with schools around the country to help students learn math

Identify points of automation in software testing processes
Design and execute QA tests using scripts that automatically test functionality
Identify bugs and quality issues in development, service or business processes
Create console apps to interact with and test RESP APIs

Founder & CTO • Bizarro Collective LLC March 2020 - Present

I started Bizarro Collective to give artists a platform to create sustainable fashion via their designs while also contributing towards a higher cause

Find and recruit artists/brands with unique original designs
Create a sustainable supply chain with products that are organic and made in USA
Design and create the Bizarro Collective online retail platform

Co-Founder & COO • SalonPerk Feb 2018 - Oct 2019

I founded Salonperk in an effort to provide a subscription for salon services, so that customers save money on a per-appointment basis and mom-and-pop salons fill more seats during off-peak hours.

Conducted extensive user research, interviewing 30+ female college students and 15+ salon owners to identify pain points for both parties and then devised a business plan to alleviate those pain points

Co-Developed an MVP mobile app in native iOS that allowed customers to choose subscription tiers, utilize a map interface to find partnering salons, and book appointments directly with these salons

Graduate Researcher • Aalto University Feb 2017 - Oct 2017

During my master's I performed research for the Autonomous Systems Laboratory to create a model for an autonomous drone system

Performed research on various drones focusing on available sensors and on-board computer capabilities
Created an accurate and robust drone model that allowed for on-the-fly model manipulation using Model Predictive Control

Tools & Tech

Tools: Jira • Photoshop • Adobe XD

Tech: Python • SQL • JavaScript

Platforms: Linux • OSX • Windows

Education

Aalto University: MSE • Mechatronics & Robotics • 2016-2017

Luleå University of Technology: MSc • Space Science & Technology • 2015-2017

Arizona State University: BSE • Astronautical Engineering • 2010-2015
