AMAN SHARMA

SPACE AND ROBOTICS ENGINEER

928-951-1646
aman.sharmarx@gmail.com
asharmarx.github.io

ABOUT

I am a robotics engineer with interests in space exploration and autonomous robotics. Currently, I have also developed an interest in web development and web design. The websites I have built are available on my GitHub

SKILLS

Programming
Python | C++ | HTML/CSS/JS

Unit Testing
Git, Travis CI

Linux
Shell Script/Command Line

3D Modeling
SolidWorks

Modeling and Estimation
System Modeling, Matlab/Simulink, PID Controller

Data Analysis
JMP, Excel

Design
Photoshop

EDUCATION

2016 - 2017

SPACE ROBOTICS AND AUTOMATION / MSc.
Aalto University
Thesis: System Identification of a Drone Platform

2015 - 2017

SPACE SCIENCE AND TECHNOLOGY / MSc.
Lulea University of Technology

2010 - 2015

ASTRONAUTICAL ENGINEERING / BSc.
Arizona State University

EXPERIENCE

04/2018 - Present

MATHEMATICS TUTOR
Excelsius Academy | JNJ Academy
Tutor high-school students in all range of mathematics
Mentor students to grow them personally and academically

02/2017 - 10/2017

GRADUATE RESEARCH ASSITANT
Aalto University School of Automation
Researched the system dynamics of various VTOL drones
Created an accurate system model for stable flight using MPC

06/2016 - 08/2016

FLIGHT SOFTWARE ENGINEER INTERN
Bitcraze AB
Researched various estimation methods for nano-quadcopters
Converted a library in to Python that allowed autonomous flight

Summer 2013 - Summer 2014

PROCESS ENGINEER
Intel
Collected and analyzed data on chip inspection processes
Improved low-level inspections which impacted chip quality
