Experience

Software Engineer in Test • New Classrooms May 2019 - Present

New Classrooms is a non-profit edu-tech organization that partners with schools around the country and uses innovative technology to help students learn math

Design functionality and UI testing suites with test driven development methodology

Write automated Python test scripts to execute thousands of tests daily

Develop bots that automate long tasks saving the company three weeks of work

Work with cross-functional teams to quickly solve problems, ensuring production environment is functional

Lead daily tech-team standup

Improve the organizational culture as a leader of the DEI committee and the Culture committee

Founder & CTO • Bizarro Collective LLC March 2020 - Present

I started Bizarro Collective to give artists a platform to create sustainable fashion via their designs while also contributing towards a higher cause

Designed and coded the Bizarro online retail platform

Integrated the Stripe payment method via the Stripe API

Created a sustainable supply chain with products that are organic and made in USA

Math Tutor • Excelsius Academy March 2018 - Feb 2019

Excelsius Academy was a math tutoring company which provided help to students in topics such as English, Math, Science, and the SATs.

Tutored students in the subjects of Calculus, Chemistry, and Phsyics

Created lesson plans and helped students prepare for college SATs

Graduate Researcher • Aalto University Feb 2017 - Oct 2017

During my master's I performed research for the Autonomous Systems Laboratory to create a model for an autonomous drone system

Performed research on various drones focusing on available sensors and on-board computer capabilities

Created an accurate and robust drone model that allowed for on-the-fly model manipulation using Model Predictive Control

Tools & Tech

Tools: Git • Jenkins • Jira • Photoshop • Adobe XD

Tech: Python • SQL • HTML • CSS • PyTest • Bash • Javascript

Platforms: Linux • OSX • Windows

Education

Aalto University: MSE • Mechatronics & Robotics • 2016-2017

Luleå University of Technology: MSc • Space Science & Technology • 2015-2017

Arizona State University: BSE • Astronautical Engineering • 2010-2015
